MARK ANDY

"Thank you again for your invitation to visit your facility. We appreciated your hospitality. You should be proud of what you have cultivated at Empire. The people are engaged in the business, and you have unique approaches to running things. We were impressed with the cellular layouts and the level of innovation really blew us away. Your team was great as well. They were easy to speak with and provided us with loads of information. Definitely plenty of takeaways for us during this visit." — Brett Greene, Willington Nameplate
