My color. Everywhere. **FAST!**
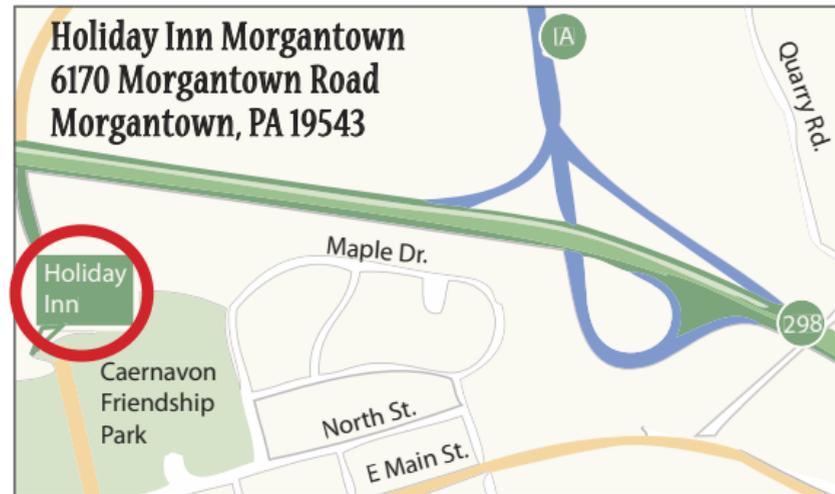

Color Process Control Seminar

PRESENTATION HIGHLIGHTS

- Process and Spot Color Control in the Digital Age
- Critical Steps to Reduce Makeready
- Critical Metrics for Process Control

Daniel G. Remaley

Former Sr. Consultant Process Control at PIA /GATF

Dan is a 35-year prepress veteran who has helped printers define color reproduction standards and quality issues, dramatically improving their operations, customer satisfaction and profitability while solving film, proof, plate, and presswork problems.
