Changelog Neo

Changelog Neo 2.1.1

What's new in Neo 2.1.1
Neo 2.1.1 contains only bugfixes.
The table below lists the most important logs which are fixed in Neo 2.1.1

PRN49278	Neo crashes when you save this file
SV92168	Changes to MySQL Librarian dbase are not recognized
B292156	In Neo 2.1 the button to Select by Appearance is removed. You need to use the Selector Tool. Bug with selecting text fixed in Neo 2.1.1
SV92810 PRN54329	Characters could appear out of nowhere in text

Important remark
Neo 2.1.0 is removed from the download center.
The bugfixes which were made for Neo 2.1.0 still apply for Neo 2.1.1.

Changelog Neo 2.1

What's new in Neo 2.1
Integrated Shuttle 3.0
- New user interface
- Parameter Assistant which allows to re-send jobs to a workflow with the same public parameters as on the previous run
- Show Job Relations (only with Odystar 4.0.0 and later)
- Quick Look for jobs
- Support for multiple servers
- Automatic resubmit into workflow when opening a file from a workflow via Shuttle - modify - save

Separation updating
- better handling when spot colour equivalents are not consistent with Librarian database, or with earlier definitions used during the same Neo session

Support for more image formats for placed images

Tools:
- Names of tools made consistent with Adobe products, Illustrator in particular
- New shortcuts for most tools
- Guide Tool
- Pen Tool improved
- Transparency settings no longer automatically applied to new objects

Import "difference" files from Odystar 4.0.0 and later, which e.g. allows to visualize differences between 2 versions of a file in a versioning workflow

PitStop
- Browse "errors & warnings" in PitStop Reports
- Action Lists and Profiles has better handling for when an Action List or PDF Profile from a newer library is imported into Neo

Spelling checking for more languages

"Quit & Release licenses" button renamed and moved to "About" window

Flattener has new option "Convert PS blends"

More information on the new options can be found in the manual which is included with the software.
