# Guillotine Paper Cutting Guide
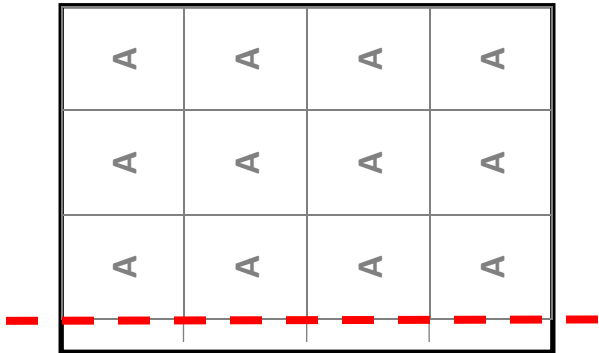

1. Measure size of finished pieces.

2. Start with a short side. This reduces the greatest length of the paper to make it easier to maneuver on next steps.
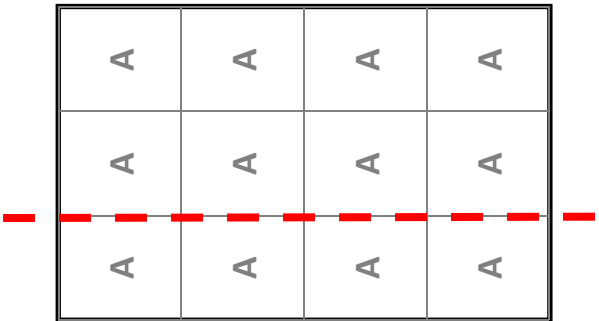

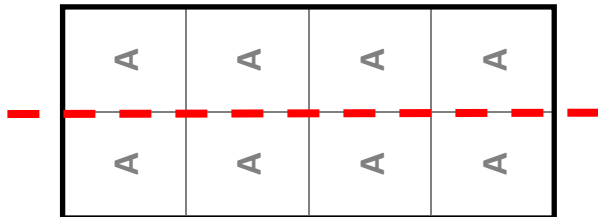

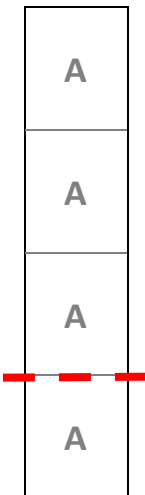

3. Rotate 90°

4. Rotate 90°

5. Rotate 90°
**After the cut, leave it in the cutter!**

6. Move out the width of one piece.
**After the cut, leave it in the cutter!**

7. Move out the width of one piece.

8. Rotate 90°
After the cut, leave it in the cutter!

9. Move out the height of one piece.
After the cut, leave it in the cutter!

10. Move out the height of one piece.

11. **Finished!**
