

CoatMax UV 60.12 HG SG

PX6012-74**UV-curable high gloss coating**

KEY CHARACTERISTICS

- Suited for inline on UV ink
- Suited for offline on conventional ink and water based primer
- For board and paper
- Good scratch resistance
- Specific gravity : 0.90 – 1.10
- Curing : 80-82 W/cm depending on lamp power and press speed
- High reactivity
- Hot foil stamping : not recommended
- Gluing : not recommended
- Viscosity : 40 – 50 secs / 25°C / DIN 4 cup

FEATURES AND BENEFITS

- High gloss degree
- Low smell formula
- Non-yellowing

PACKAGING

20 kg

INSTRUCTIONS FOR USE

Stir well before use

Dilution : Not recommended

Cleaning : With adequate UV-cleaner

TRANSPORT & STORAGE

Store at room temperature with container tightly closed when not in use in a cool, ventilated area.

Protect from direct sunlight and keep away from heat sources.

For details about health and safety, please consult the MSDS.
