

# **FountMax Red 20.21 AF SG**

**PX2021-22****Fountain solution for IPA-free printing in heatset**

## **KEY CHARACTERISTICS**

- Suited for soft water
- Dosage : 3 – 4 %
- IPA Dosage : 0 – 5 %
- Suited for conventional ink
- Recommended pH value : 4.8 – 5.2
- Fountain solution for IPA-free printing
- Approved by the major press manufacturer
- Colour : red

## **PACKAGING**

1000 kg IBC  
230 kg plastic drum  
27 kg jerrycan

## **FEATURES AND BENEFITS**

### **Efficient anti-piling components**

- Reduced ink build up on blankets
- Less washing intervals
- Cost savings

### **Reduced ink feedback**

- Reduced down time
- Increased production

### **Total elimination of alcohol possible**

- Strong cost savings on the purchase of isopropyl alcohol
- Healthier working conditions
- Reduction of VOC

### **Reduced contamination of the dampening circuit**

- Less contamination of the dampening water with paper dust and ink
- Extended cleaning intervals

## **INSTRUCTIONS FOR USE**

Clean the dampening circuit before using the fountain solution.

Set the dosing equipment for correct dosage of the fountain solution.

After completion and circulation through the system, check for pH and conductivity and compare with the target concentration values.

## **TRANSPORT & STORAGE**

Store at room temperature with container tightly closed when not in use in a cool, ventilated area.

Protect from direct sunlight and keep away from heat sources.

For details about health and safety, please consult the MSDS.
