

WashMax 60.10 MI SG

PX119-8**Blanket and Roller wash for use with conventional inks**

KEY CHARACTERISTICS

- Very strong cleaning power
- FOGRA approved
- Water miscible
- Corrosion inhibited
- Suited for both manual & automatic use
- Suited for coldset, heatset and sheetfed presses
- Flash point: 62 °C
- Density: approx 0.785 g/ml @25 °C
- Colour: colourless
- Odour: Mild hydrocarbon smell

PACKAGING

200L steel drum
20L tin container

FEATURES AND BENEFITS

Emulsifies with water

- Stable emulsion
- Reduced maintenance
- Removes both ink and paper dust

Free of chlorinated hydrocarbons

- Safer and lower environmental impact

Strong ink dissolving power

- Fast acting, less standstills
- Economical in use
- Reduced downtime

Not aggressive to offset plate coating

- Can be used for all common plate types

Safe to handle

- Non flammable with flash point >60 °C

INSTRUCTIONS FOR USE

Blankets: Apply with a moist cleaning rag and remove at one go, ink and paper dust from the blanket. Then rub with a moist cloth until the blanket is dry.

Ink Rollers: Spray undiluted or mixed with water on the rollers, set the doctor blade.

Automatic systems: Follow the programmed instructions.

TRANSPORT & STORAGE

Store with container tightly closed when not in use in a cool, ventilated area.

Never store near open flame, sources of heat or ignition.

Take the necessary precautions to avoid accidental leakages as it will pollute the environment.
