Prepress Manager Cockpit System Requirements

Prepress Manager Cockpit Operating System Requirements:

- Windows XP-Pro (SP3)

- Windows 7 Pro or Ultimate

- OS-X Leopard 10.5.x or higher
- Snow Leopard 10.6.x or higher

  Note: Windows Vista and Mac OS X 10.4 (Tiger) are no longer supported.

- Windows 2003 Server (SP2), Windows 2003 R2 (SP2) Server, Windows 2008 64-bit and Windows 2008 R2 64-bit are also acceptable.

A licensed copy of Acrobat Professional 7, 8.1 or 9 is required on all Cockpit user workstations, and is to be supplied by the customer. The Imposition Editor and Barcode reader (components of PDF Toolbox) require Acrobat Pro version 8 or 9.

Broadband Internet connectivity is strongly suggested. It is the customer's responsibility to provide an adequate firewall and anti-virus/spyware protection.

Prepress Manager Cockpit minimum PC Hardware Requirements:

- Pentium 4 1.8GHz CPU (3GHz recommend)

- 2GB RAM (with Windows 7, 4GB is strongly recommended)

- DVD drive (for software load)

- 1000bT (gigabit) network adapter

- Graphics adapter and monitor capable of 1280x1024dpi resolution at 16-bit or higher color depth

Prepress Manager Cockpit minimum Macintosh Hardware Requirements:

- Macintosh G5 or Intel Mac 1.8GHz CPU

- 2GB RAM

- DVD drive (for software load)

- 1000bT (gigabit) network adapter

- Graphics adapter and monitor capable of 1280x1024dpi resolution at 16-bit or higher color depth
