

Systemservice Prinect Data Protection

Storms. Fires. Viruses. Hackers. Computer failures.

What do all of these have in common? They are just a few of the threats to your business. Are your jobs and configuration data secured? Do you have a proven plan to get back into production with minimal downtime and no loss of crucial data? If you don't, or if you are backing up to tape, CD or DVD, then Prinect Data Protection from Heidelberg is the perfect solution.

Prinect Data Protection offers printers a refreshing alternative to traditional backup/restore approaches. It is an affordable, integrated solution using the latest advancements in disk-based on-site backup coupled with automatic replication over the Internet. This allows Printers to fully protect their workflow as well as customer data and jobs.

Features:

- Consultation on Business Continuity and Disaster Recovery planning designed specifically for Printers
- Comprehensive turn-key package including all hardware, software and implementation

Benefits:

- Configuration and job data is highly secure
- Your production system can be quickly restored when disaster strikes
- Lower Total Cost of Ownership and faster Return On Investment than traditional backup solutions
- Peace of mind

Equipment can be repaired or replaced. Information cannot.
